FROM: MidAmerican Energy Company

DATE: August 12, 2022

RE: 220 ILCS/5-8-201.10 (a) Monthly Compliance Report

---

Attached with this filing is the above public utility's monthly report in compliance with 220 ILCS 5/8-201.10 that reflects data for July 1, 2022, through July 31, 2022.

- This compliance report (check one):

☐ Includes low-income residential customer data

☒ Does not include low-income residential customer data

- If the measurement period used for Metric #1 (the number of customers) is not as of the end of the month, please indicate the measurement period used (e.g. beginning of the month, monthly average):

For residential customers – we are using number of customers as of the end of the month

For non-residential customers – we are using number of customers as of the end of the month

- If certain metrics do not apply to the public utility and the value of zero (0) has been entered, indicate below those metric numbers and explain why they are not applicable:

You will see the value of zero for optional low-income data fields.

- Important notes regarding this compliance report are as follows:

If an entire zip code row is blank, we only provide one type of service for that zip code.

Information provided for metrics 6 and 19 were updated to meet guidance provided by Joy Nicdao-Cuyugan to all utilities on July 22, 2022.

Data for metrics 19-22 are now provided as of beginning of the month. Previous reports filed by MidAmerican Energy were provided as of the end of the month as indicated in the letter of submittal with those filings.

Questions regarding this compliance report can be directed to the following:
